

EDG - ACTIVITY UPDATE

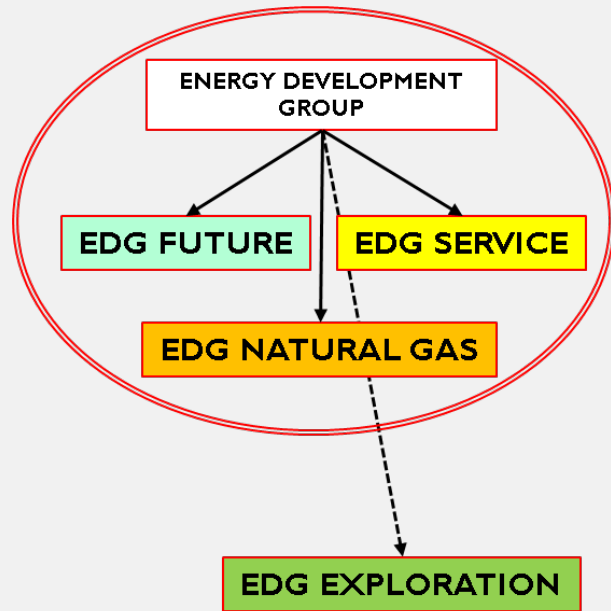

JANUARY – MARCH 2023

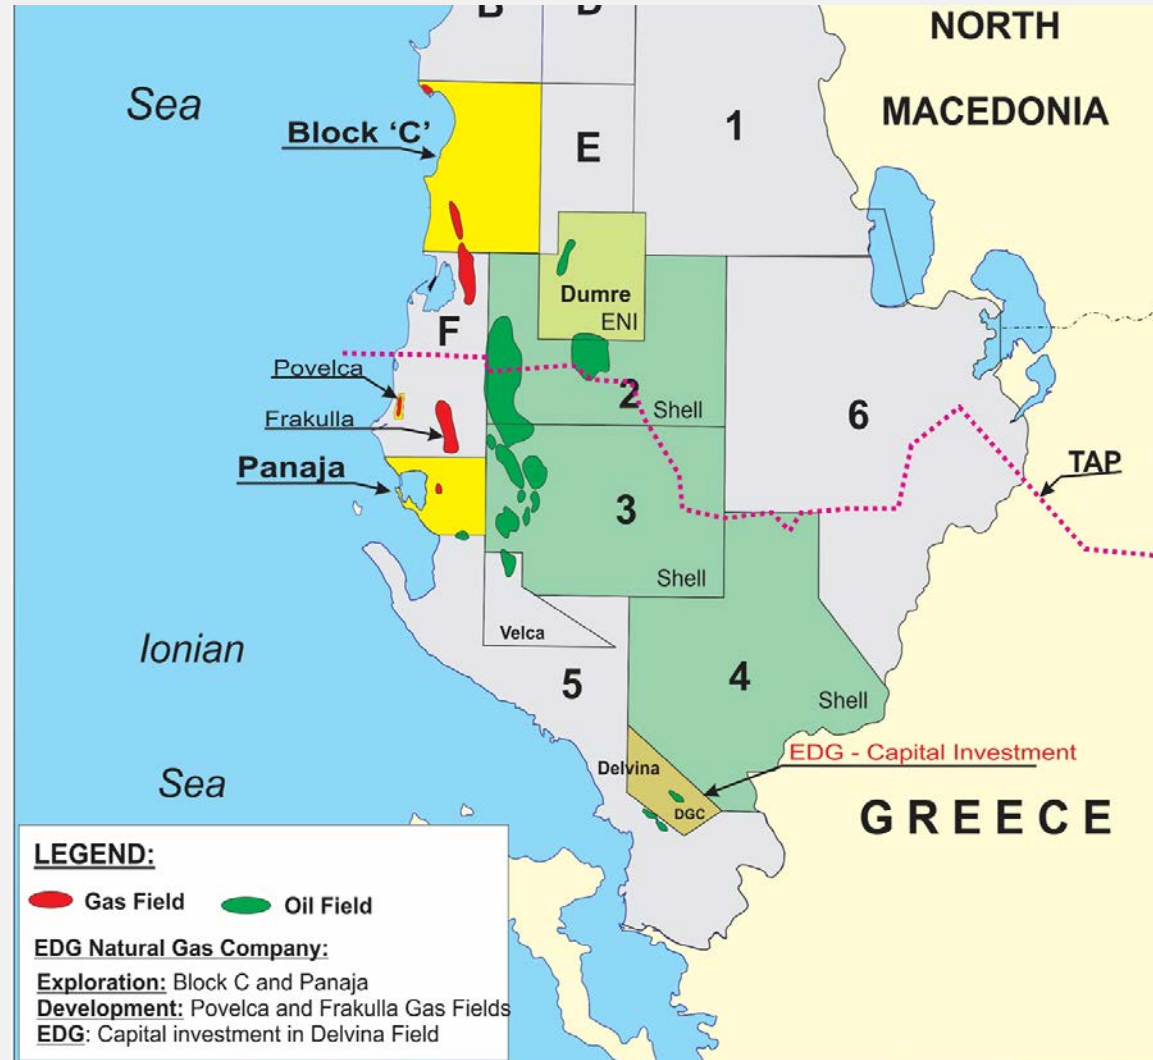

56th CEEC Scout Meeting

11 – 13 May 2023, Torun

EDG – ACTIVITY UPDATE

- **EDG FUTURE**
 - Delvina Gas-condensate field
- **EDG Natural Gas**
 - Frakulla field: W/O; New well
 - Povelca field: G&G data integration

DELVINA FIELD – PHASE I DEV

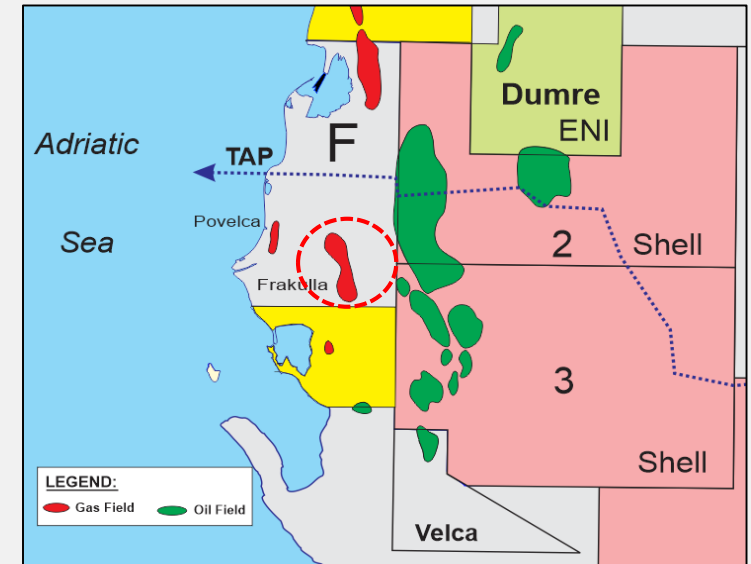

- Testing results (Feb. 2023) at D12ST very encouraging.
- Sour Gas Plant under refurbishment / construction (360,000 m3/d).
- Gas-to-Power turbines 5*1.5MW, under construction.
- CNG technology is underway; planning, procurement.
- Modular LNG gas plant (160 TPD) under discussion (BOT).

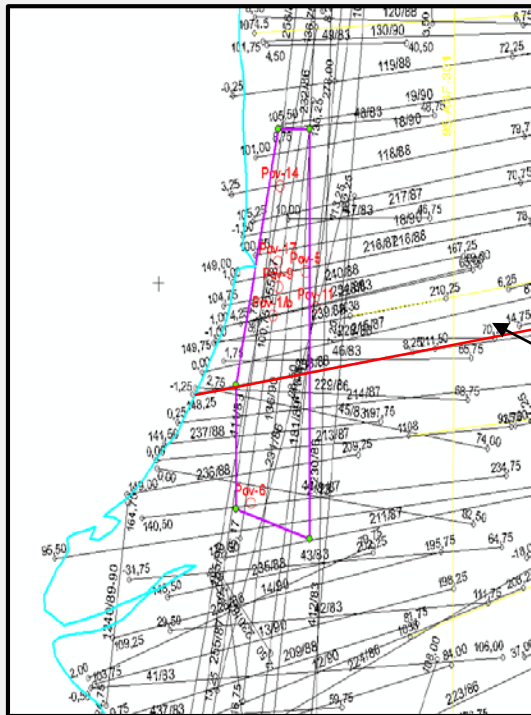

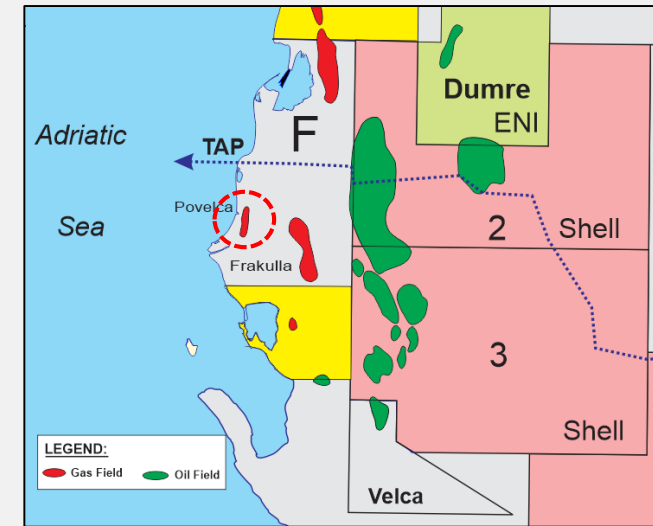

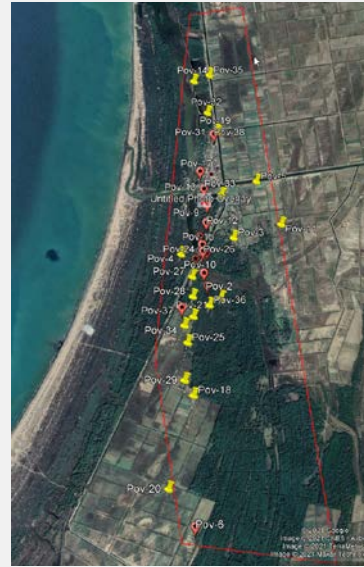

FRAKULLA FIELD - UPDATE

- WO operations underway: Fr-19, 30.
- New well (Fr-115) completed in January 2023. Potential gas reservoirs to be tested in May-June 2023.
- G&G work underway:
 - Well data reviewing.
 - 3D reservoir model underway.
 - 2D seismic lines reprocessing underway.
- Potential gas marketing in 2nd half of 2023.
- CNG is seen as obvious option to commercialize the gas.

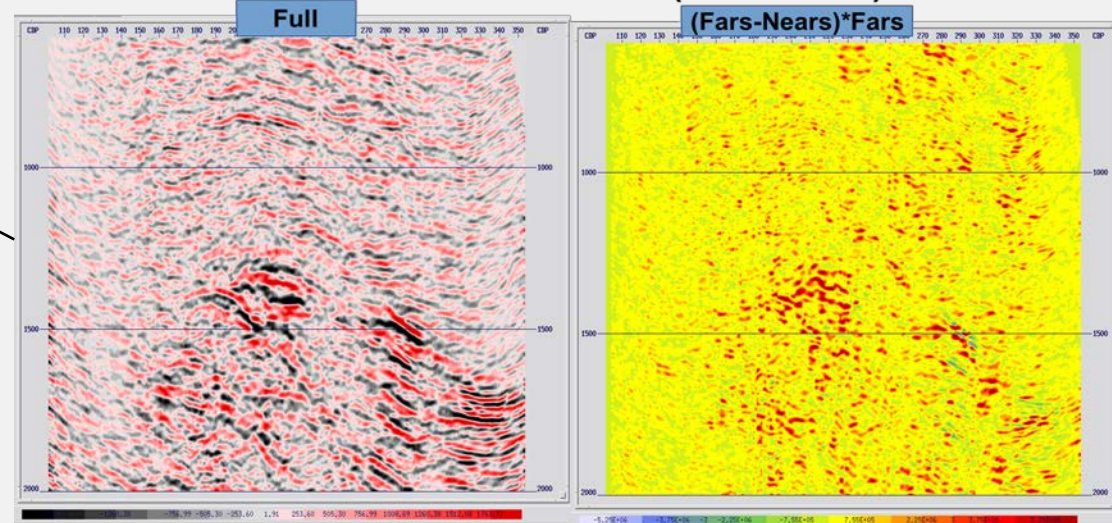

POVELCA FIELD UPDATE

- G&G work underway:
 - Well data review (~ 40 wells).
 - 3D reservoir model underway.
 - 2D seismic lines reprocessing completed.
- Preparation for WO operations and new drill underway.

238/88 – PSTM Stack Full and (Fars-Nears)*Fars
